order a drink
from the Bar

Top Tips for a successful order

1) Select table number -

It should pop up at the end, but there is also a choice to pick table number in the menu. This just helps the staff find you and get food to you asap

2) Make sure bank details are in and up to date. -

You can do this by clicking the account tab at the bottom and selecting Wallet.

3) Make sure you select dine in and not delivery. -

Doing this will mean a courier will come and it's best if they are out working. You can do this by selecting order method on the checkout page
